

## WHEAT BOARD MAY YET BE FORMED THIS YEAR

Aaron Saprio, the marketing expert in creating a great deal of excitement and it begins to appear he will succeed in forming a wheat pool in Alberta and Saskatchewan to handle this year's great crop of wheat. He appears to be a wonder in his line and interested both farmers and business men and citizens generally in his scheme. It would be impossible to give a full report of his speeches, but appended will be found a number of extracts that should be read with interest.

"It may advise to adopt, the farmers would be selling their grain on milling values and not on government grades."

There were wheat growers in the United States, said Mr. Saprio, who do not carry over and many have sold their products at ten cents more per bushel than the ordinary growers. "We the growers are not to dump, but sell in an orderly fashion, he said.

The Edmonton meeting Mr. Saprio declared that unnecessary holding of wheat was just as much to be condemned as dumping.

"California is the United States laboratory for co-operative marketing," stated Mr. Saprio. "There are twenty-two commodities organized there. During the last time in 1920 the California growers were one body that did not ask for government help."

The speaker traced the story of co-operative marketing of barley to Idaho in Kentucky, where farmers were extremely dependent upon whole outlook and revolutions were threatened. Farmers and bankers were pressed by debts and the situation was serious. The growers were dumping the barley on the market and breaking the price against each other. They were cheating and left and got the same price for good or ill tobacco.

Then the California co-operative marketing system was studied. It was adopted by 52,000 farmers and the number has now increased to over 100,000. As a result of the orderly marketing the growers were getting ten to high as thirty-one cents a pound while the advance payments are now higher than what was paid for the whole crop previously. Bankers had come to the assistance of the growers in financing and the producers now set the price of the product.

"How much of this information can the surplus wheat crop be trusted?" asked Mr. Saprio. He pointed out that such reports were usually given out by dealers just before a marketing season. And they had the control of special marketing news services in their own hands. The always reported over-production, but it was likely that their estimates of a 500,000,000 crop would work out at 400,000,000.

"The price of wheat is made by speculation at Liverpool and Chicago," he said. "These clever dealers always play a sure thing, and make the sure thing a sure thing."

"These dealers make the consumers in the Old Country and the producers who are declared. They only profit satisfied are the gamblers at Chicago, Liverpool and Winnipeg. He said."

Dealing with the Alberta prospects for co-operative marketing Mr. Saprio said a telegram from J. B. Farland, of the Alberta Pacific Company, in which a string of cleverly worded statements were made was offered for the wheat pool. The communication drew loud cheers.

## Cluny Annual Sports Thursday Baseball Tournament, Trap Shoot Athletic Events, Etc., August 9th

Tomorrow Thursday, August 9th, the people of Cluny are holding their annual sports, and putting up a fine list of prizes to be competed for, which should draw a big crowd from all over the country.

Among the features will be a baseball tournament, in which Strathmore, Milo, Ouelletville and Glendora will play.

Trap shooting will be another of the main features, together with a good list of athletic events. The admission for the entire program is only 50c, and children will be admitted free. There will be a refreshment booth on the grounds and every effort made to see that all have an enjoyable time.

There will also be a trap shoot which will be another of the main features, together with a good list of athletic events. The admission for the entire program is only 50c, and children will be admitted free. There will be a refreshment booth on the grounds and every effort made to see that all have an enjoyable time.

## Does it Pay to Belong to U.F.A.

During 1922 nearly half of the members belonging to the U.F.A. in previous years dropped out or failed to pay their dues. In a good many cases this was no doubt due to poor crops and scarcity of money and many of those members will return to the fold this year when conditions are better. But in many cases farmers do not appear to care whether they belong to an organization or not. In fact we often hear sayings like this: "What's the use of paying in \$5.00? We get nothing for it and you are doing nothing, etc. Now, while it is perfectly true that the U. F. A. is not perfect and that there is plenty of room for improvement, still, I claim that even looking at it from the standpoint of dollars and cents and from a purely 'local' standpoint, no farmer can afford to be a non-member. This was brought home to me very strikingly this year on blinder twice proposition.

For some time the officers of our local have been considering a carload of twice for the farmers belonging to the local, but for some reason or other all meetings called lately have only been attended by a faithful few while the balance appears to have been too busy making money for those who exploit them to attend meetings. Well, it is impossible to do any co-operative buying with a lackers down attending meetings and the officers of locals cannot afford to run around begging them all to do something that will put money in their own pockets. So the twine question dragged on until about three weeks before harvest when a twine meeting was called and I was delegated to see all local twine dealers and get prices on a carload of twine.

But, owing to the fact that one of the biggest crops ever raised in Western Canada, there is a fear of a twine shortage among those complaining the case here is what I found out: agree at this late date to sell a carload of twine. But in investigating the case here I was told that individual orders can still be taken by the U.G.G. at \$15.00 per 100 weight and at \$14 from some of the others. The U.G.G. man showed me a letter on the twine question received sometime ago in which the price on twine to U.F.A. locals is not low quoted at \$11.25 at the head of the lake, with freight and sales tax added it would bring the price up to a little over \$12 per hundred pounds. Or in other words, every farmer buying through his local this way would save more than one dollar a hundred on his blinder bill. In my own case in a twelve hundred pound lot, I just could have paid four years' dues and the U.F.A. local. I could have bought three 100 pound sacks of flour or 100 pounds of sugar even at retail prices. Yes, I might have bought two bottles of moonshine to speed me along when I begin stopping the heavy rain. And the saying is only true by buying co-operatively in carlots in big quantities, we can save money buying flour, feed, fertilizer and many other things too numerous to mention. Even machinery may be saved, which the U.F.A. co-operative has put on corn grown machinery. The prices asked by machinery companies for this kind of machinery were simply outrageous high, so Mr. Trigo organized the Corn Growers Union and made a deal with some U.S. manufacturing company got the machinery wholesale price.

It is time the farmers awake and get over their extreme foolish indignity, when we see and we need not look for any government help as the Federal government is owned and controlled by the interests who farm the farmer. The only thing now that by the carload—not put in his pocket might help in getting the grain grown a living price for his product is a volunteer wheat pool, and what are we going to do about it? Every farmer should attend next proposition.

There will also be a trap shoot which will be another of the main features, together with a good list of athletic events. The admission for the entire program is only 50c, and children will be admitted free. There will be a refreshment booth on the grounds and every effort made to see that all have an enjoyable time.

Pineapple and Crabapple Jelly in large glass jars. Price \$1.10

CANNED GOODS  
A good Salmon in tall tins. 3 tins for 55c  
Luna Fish 25c. and 35c. per tin.  
Wet and Dry Shrimps, 2 for 55c.  
Chicken Haddie per tin 35c.

Sweet Mixed Pickles, quart jars 65c., and gallon tins \$1.65.  
Campbell's Soups, 3 tins for 55c.

Welche's Grapelande in 4-lb. Tins  
Special Price 95c. per tin.

## C.P.R. President Cannot Consider New Proposal

A letter was received from E. W. Beatty, president of the Canadian Pacific Railway, in answer to a request from the C.P.R. Contract Holders' Immigration Association and published in the Call last week, that the C.P.R. enter into a new contract which will provide for present and prospective settlers, a better chance of coming owners of the farm they live on and other points in the country.

"Your letter of the 26th inst. enclosing the memo from the executive committee of the Immigration Association was received in my office during my absence in Europe."

"The Immigration plan authorized by the company was adopted after much careful consideration of the whole situation, and I cannot consider any other proposal."

"I cannot but think that the request of your association is prompted by discouragement under the present depression and that after a fair consideration your members will appreciate the very generous relief which it affords."

"A very large number of contract holders have taken advantage of the new contract and I am satisfied that it has the approval generally of those affected by it, as a general modification of their present obligations."

Just the right kind of weather to bring the farmer smiling.

Mr. and Mrs. Bowles left Monday to visit the Morning Temple at Carleton Place and visit other points in the south.

T.W. Bates, our popular postmaster and Mrs. R. W. Brown accompanied friends in an auto trip from Calgary to Carleton last week and report a most enjoyable trip.

Most every person now concedes a wheat pool should be tried this year. That Scott was taken to Calgary and it is feared he may have an attack of appendicitis.

Now take the kiddies to the circus Monday—you were one once upon a time.

## Moderation League View of Clause "D"

CAMPAIGN COMMITTEE MAKES THEIR STAND CLEAR ON THIS POINT

That question "D" of the liquor plebiscite will be held on Nov. 5 gives the government the widest scope in framing an act, in the event of its acceptance, does not indicate or aim at a veto of the bar, is the burden of a statement issued by the campaign committee of the Moderation League on this question.

The following is the statement that sets out the stand of the Moderation League on this question.

The Social Service League has made a statement that we are advising the return of the bar. This we are emphatically opposed to, as a great majority of our supporters today were those who voted to get rid of the bar in 1915, considering it a public nuisance and their sentiments have not since changed.

"The Government of Alberta is charged with the responsibility of interpreting the wish of the people as recorded by them on November 5, 1922, but we insist that they shall not interpret Clause "D" as meaning the return of the bar. Clause "D" gives the government the widest scope in framing a law, reasonable and practical in law that will promote temperance and better social, moral and economic conditions in the province.

We believe that the present Greenfield government has the interests of temperance at heart and that the legislation for the control and sale of liquor will be a good act, but should this government or any other government attempt to bring back the bar or saloon and its old abuses, the moderationalists of this province will use all the power in their hands to prevent the consummation of any such legislation."

THE UNITED CHURCH SERVICES SUNDAY, AUG. 12 Sunday School and Bible Class at 10:30.

Family worship at 11:30. Subject: "The Mission of Jesus." Evening service at 7:30. Subject: "The Right to Life." Special music by the choir. Everybody made welcome.

Geo. Matthews, wife and family have gone to Edmonton, where it is said grain cutting will start at Milo and south before the end of the week.

## THE UNITED CHURCH

SERVICES SUNDAY, AUG. 12 Sunday School and Bible Class at 10:30.

Family worship at 11:30. Subject: "The Mission of Jesus." Evening service at 7:30. Subject: "The Right to Life." Special music by the choir. Everybody made welcome.

Geo. Matthews, wife and family have gone to Edmonton, where it is said grain cutting will start at Milo and south before the end of the week.

The members of St. Victor's Church held their annual Sunday School picnic last Thursday and a most enjoyable time was had by all.

Miss "Happy" Walsh has arrived from Calgary to spend her vacation at her home in Gleichen. Her many friends are pleased to see her once more.

Aaron Saprio visit may be the means of bringing the people of Alberta together in a way that heretofore seemed impossible. If he accomplishes this alone his visit will be worth a great deal to this province.

Though only opened on July 1, the new provincial government ex marketing plant at Lethbridge has already handled about \$5,000 worth of grain.

The plant is being very extensively patronized.

(Continued on another page.)

## Banks Signify Desire To Give Financial Aid To Sask. Wheat Pool

Regina—Some of the banks have already indicated their desire to give financial aid in furnishing the necessary credit. It is a statement securing a clearing drafted by the secretary of the Saskatchewan Wheat Producers' Association and distributed by the banks. At all points where banks are located, the committee will state further details as to the nature of the pool. Where there are no banks, other arrangements are to be made.

The initial payment on grain con-

signed to the pool, it is pointed out, will be made before the banks will "lend" the percentage of initial payment can be determined only through the clearing. In the opening of the pool.

Further possible payments through the clearing system are forecast in the statement that "should it become evident, as the clearing proceeds, that a further substantial payment can be made before the end of the pool year, provision will be made for such a payment."

## PEOPLE RETURNING TO CANADA AS PROSPERITY WAVE IN U.S. PASSES

Ottawa—The rapid increase in immigration to Canada during the first three months of the present fiscal year, amounting to 63 per cent more than for the same period a year ago, was accompanied by indications of a return movement from the United States, according to officials of the Department of Immigration and Customs.

Reports reaching the department

indicate that there has already been a considerable movement of returned Canadians who in recent months have been returning to Canada by the industrial prosperity then existing in that country. The proportion of prosperity, it is stated, with improved industrial conditions, and the northwest movement of the proportion of prosperity, it is stated, is believed to be in the United States.

## Britain Has Problem In Unemployment

French Occupation of Ruhr Has Checked Demand—Reviewing in the House of Commons the unemployment situation in the United Kingdom, the Minister of Labour, said there was a different picture about the country. The unemployment situation, which at first seemed to suggest to which an improvement, consequently, the unemployment figures had steadily fallen and now stood at 1,650,000. There was no longer a reduction to point below a million this year. According to the official figures, the unemployment situation had been bettered and now stood at 1,650,000. There was no longer a reduction to point below a million this year. According to the official figures, the unemployment situation had been bettered and now stood at 1,650,000.

Mr. Morrison said he hoped the peace of Lausanne would result in an industrial boom but the ultimate solution of the unemployment problem rested largely on the production of economic and industrial goods in Europe.

## Will Not Study Esperanto

League of Nations Advised to Study Living Languages—Geneva—Esperanto, an international auxiliary language, fails to meet the approval of the commission for the study of living languages, which has been invited by the assembly of the league of nations to study the question. The commission decided not to recommend any form of artificial language to be used as a medium of communication between nations of the world together locally.

## Russia and Japan Negotiations

Tokyo—A preliminary conference which was to have the effect of bringing negotiations looking toward diplomatic relations between Japan and the Russian Soviet Government have been concluded here. It now remains for the governments concerned to determine on the basis for the opening of a formal conference.

## Imperial Conference Will Discuss Advisability Of Guidance From Dominions

London—In the House of Lords, Lord Strathclyde asked whether in response to the continued demands from the dominions for a share in the shaping of the destinies of the Empire, any definite offer which might be considered as the Imperial Conference had been made to the dominions. The Imperial Conference, which was to have the effect of bringing negotiations looking toward diplomatic relations between Japan and the Russian Soviet Government have been concluded here. It now remains for the governments concerned to determine on the basis for the opening of a formal conference.

Referring to the idea of a federal parliament, the Duke of Devonshire pointed out that this has been discussed exhaustively at the Imperial Conference of 1921. The many objections to the proposal, the one being that it would interfere with the dominions' right of self-determination, which they and the Mother Country retained the agreement in principle. The Duke referred to speeches made by Premier Smuts, of South Africa; ex-Premier Sir Robert Borden, of Canada; ex-Premier W. M. Hughes, of Australia; and others disapproving of the idea, and suggested that it was almost a danger, instead of an opportunity, to the dominions.

## WARREN O. HARDING

### PRESIDENT HARDING DIES SUDDENLY

WAS RECOVERING FROM ILLNESS WHEN STRUCK WITH APPOXY

Presidential headquarters, Palace Hotel, San Francisco—Warren O. Harding, President of the United States, died instantaneously and with out warning Aug. 2, at 7:20 o'clock, after a severe attack of apoplexy, which struck him down in his weakened condition after an illness of exactly two weeks.

Only Colonel Sawyer and Mr. Egan, the chief and assistant physicians, were able to reach the room before the national leader passed away. They were powerless to do anything to save him. He was in the face of the President, who was in the room before he died. He was in the room before he died. He was in the room before he died.

## Praise For Canadian

### Winning Ex-Mayor Doing Good Work

Ottawa—In a report to the League of Nations Secretary in Canada, W. G. Boyce, special representative of the Canadian organization in Europe, who has been conducting a personal investigation of the trouble in the Ruhr, says that the Canadian government has been doing good work.

## Empire Extends to South Pole

### New Zealand Has Control Over Dependency at Antipodes

London—According to an order passed last week by the House of Commons, the British Empire now extends to the South Pole. The order gives the New Zealand Government control over the Ross Sea and adjacent islands and territories are and named the Ross Dependency. New Zealand has responsibility for the Government of the dependencies, which are under the jurisdiction of the 15th degree south latitude and the 16th degree south latitude.

## Prohibition Postponed

Constitutionality—The application of the prohibition amendment to the constitution of the United States, which was passed in 1919, has been postponed. The amendment, which was passed in 1919, has been postponed.

## Manitoba Leads First Week

Winnipeg—Grinding. Number 1 Northern, and registering a yield of 12 bushels to the acre, Manitoba's first wheat crop has been harvested. The crop was harvested on Aug. 2, at North, in Southern Manitoba.

## Reverend For Bravery

Los Angeles—Because he saved his life from drowning while saving the lives of two other men, a minister of the Methodist Episcopal Church, Los Angeles, has been awarded the Cross of St. Louis.

## Just Carry 'em For Me A Bit!

Philadelphia—A group of men, who were carrying a large number of boxes, were asked to carry a few more for a friend.

## New Currency For Germany

### Economist Predicts Gold Will Be Substituted For Paper

New York—Early disappearance of the "adding German marks from the Reichsbank's list of the world's currencies and substitution of a new currency on a gold basis was predicted by J. P. Morgan, noted economist and former member of the United States peace commission, in his address to the assembly of the League of Nations in Paris.

## Western Editors

### Representatives From Manitoba and Alberta Will Attend Meeting

Ottawa—The cabinet will hear representatives from Manitoba and Alberta on the question of the return to the provinces of their natural resources.

## Cabinet Will Hear Claim On Resources

The matter of the control of the natural resources in the prairie provinces has been the subject of prolonged discussion between the Dominion and provincial authorities, but so far no solution satisfactory to all parties had been arrived at.

GLEICHEN BRANCH  
D. HUTCHESON, MANAGER

## Liquor Plebiscite WHAT PROHIBITION DOES?

There is scarcely a community in the Province of Alberta that has not paid tribute to the boot-legging fraternity. The aggregate amount runs into millions annually. Many individuals engaged in boot-legging have made a profit exceeding \$100,000 per year, and have not been convicted of violating the terms of the Alberta Liquor Act. Numbers of men and some women have left the Province of Alberta after two or three years operating as boot-leggers, and have become very wealthy thereby, who have never, at any time, contributed one dollar to the revenue of the province.

The efforts of the Alberta Government (and the loss to revenue by prohibition) have been mainly responsible for the provincial deficit of 1922, which reached approximately \$2,000,000, and a further large deficit was shown in the Provincial Budget for 1923.

The boot-legging fraternity are most enthusiastic supporters of "Cane A", by which means they hope to continue in the business, which has proved so lucrative. Will you vote to assist this fraternity to continue their ill-gotten gains, and increase the expenses of law administration, without raising the standard of law, order, and good government?

A VOTE FOR "A" IS A VOTE IN THE INTEREST OF THE BOOT-LEGGER.

## Local & Otherwise

Sam Dufos is now in charge of the Ogilvie elevator, and will make his home in Gleichen permanently with his wife and child.

Mrs. Elsie Woods sent the Call one of the finest baskets of fresh vegetables she had the pleasure of attacking this year, comprising lettuce, beans, peas, carrots, etc.

Last week M. Bollinger presented the Call with one of the biggest hauls of lettuce we have ever seen anywhere. It was exceptionally crisp and tender, making great munching.

Bob Moddy has gone to Provost to accept a promotion in the Bank of Commerce at that place. "Bob" was a very popular member of the local staff for a long time and will be greatly missed in Gleichen.

M. Bollinger has been in for raising bees at his place just east of town, and last week the first hive arrived. He is now making every preparation to give special attention to raising bees, and he is also the first to attempt the experiment here his success will be watched with keen interest.

Two autos left Gleichen this morning, loaded with a party of town people to visit the new Mormon Temple at Cardston and other southern towns, going as far as Waterton lakes, before returning here Saturday night. The party was composed of Madame W. W. Brown, P. Madgen, W. Walsh, G. W. and W. P. Evans, and Miss Vivian Brown, Messrs. W. W. Brown and G. W. Evans being the chauffeurs. One and all report having thoroughly enjoyed the journey and state that the inspection of the temple alone was well worth the trip. As a result of their favorable report (and the fact that the thinking of making the same trip). The Blackfoot Indians are enjoying their annual Sun dance, which is really a religious ceremony with them taking them back to days before the white man invaded their domain, and some there who think it no complaint to the teachers and ministers who have spent a lifetime in an endeavor to teach the red men Christianity. Many who have gone to the Sun River to see the big encampment have been disappointed as the R. C. P. Police promptly advise white visitors to more on. This is not a pleasant duty for the police, who though most courteous must do their duty in this as in all things. The chief objection to the visitors is that the Indians take up collections and just as long as they have money will the dance last, despite the fact that they should now all be at work preparing to harvest the most wonderful crops of grain ever known in this district, which certainly means a great deal. The Call reporters were shown away by the police Monday evening, and only had a glimpse at the camp grounds, which is certainly a most picturesque sight to behold.

An omnibus station at Cardston is putting on a real big stampede at Husker Saturday next. With "Shorty" at the head it is bound to be a success. We regret that we have not sent in full information, but then, no doubt he is a very busy man with all the necessary preparations.

Tourists who have visited the province recently from the United States have purchased lands in Alberta and all engaged in farming here. Twelve of these tourists in the past month have arranged to purchase farms in this province, and one of them has purchased four farms for himself and his sons.

Over 4,000 tourists have registered at the Calgary Auto Camp, a large number of them have travelled over the new Banff-Windermere highway. They are all delighted with the scenery provided in the Canadian Rockies. Displays at the Lethbridge fair this year have established the fact that fruits can grow successfully in certain districts in the south of Alberta. Fruit farmers in the south had displays of cherries, plums and small fruits as well as of tobacco. All of these were grown on irrigated lands. An interesting exhibit was that of T. F. A. at Vauxhall, which showed fifty different soil products. Fruit growing has been taken up in several parts of both southern and northern Alberta with considerable success, and this industry is taking on larger proportions each year.

WANTED. To drive Van Noy in the Arrowood School District. Men only, application at once.

Secretary, W. H. LYLE, Gleichen

## ARROWOOD

By C. C. WALKER. Some ten of the girl friends of Miss Lela Walker gathered at her home last Thursday morning to assist her in celebrating her eighteenth birthday. The girls left about five in the afternoon, wishing Lela many happy birthday occasions.

Mr. and Mrs. G. T. Jones and Rev. and Mrs. W. C. Lyle left last Wednesday to make their way to Cardston at Calgary, Olds, and Banff. At last reports they were making the trip in good order, having had their visit at Olds and were on their way to Banff.

M. H. Ward, Paul Norton and Jack Beagle were among those attending the Sapelo lecture in Calgary. Quite a large number also heard the lecture through the medium of the radio which is getting to be the rule rather than the exception in this community.

Miss Mabel Jones of Gleichen is spending the week with Lyle.

A well filled auditorium in expected Friday evening August 18th, when the Haystack Quartette, an a cappella group by the local Society. A great many tickets have already been sold, and it is expected that the event will be freely seen the proceeds are to go to the community clinic, which should uplift the health conditions of the people of the community. It's to our interest and duty to support this movement.

The C.W. Society of the Bow Valley church held a special in the church basement last Friday evening to which all the young people of the community were invited. There was a good attendance and those present voted in favor of holding future special at that place. The society now has the use of an organ which should assist in the singing of hymns with the musical side of upliftingness. About fifty has been the average attendance at their meetings lately and the society is progressing in good order.

Russell Galt, Mel Bohon, Jack Beagle and Floyd Netherland returned from Washington last week. They report a successful tour in Banff as they returned home. Mr. Bohon says that in the district 140 miles south-west of Spokane he saw corn growing as high as any he has ever seen. He says that most of the farmers use the combined harrow and plow to harvest their grain, cutting, threshing the grain and leaving it bagged and ready to haul to town. The district is one which was settled and irrigated several years ago with a promise of a statehood, but owing to the fact that the ditch company dissolved, it was abandoned. Later it was found that by digging wells thirty feet deep a supply of water sufficient to irrigate large areas at little expense might be obtained. The raw land is now selling for from \$60 to \$100 per acre and promises to rival if not exceed the Wheatbelt district in the growing of fruit and berries.

Last Friday evening being the first Friday in the month, was the regular meeting evening of the Arrowood local V. A. E. A. thirty-five men of the community and a few members of the Sunset Valley local were present. A report was had concerning the meeting of the delegates from this local with the C. P. R. and other officials July 18th at Lake McGregor to discuss the Lethbridge and Banff proposed railroad, and the ferry question was touched upon. C. P. Kemper was named to frame a petition asking the Municipal Council to open a road allowance to run east and west along the south side of the section upon which the townsite is located. Such a road is needed badly at present, and would certainly be opened immediately upon a railway being built past the townsite. At present it is the shortest and best way for arriving if the neighborhood to get to the townsite and would, supposing the plan to have similar calls to what was made in the last year, save about fifteen hundred miles of drive in a term of school, which is certainly no small item. View-Point Norton gave an extended address, summing up the address of Organizer Sapelo, which he had heard in the V. A. E. A. Hall in Calgary the evening before, and emphasizing the need of it to overcome the wheat crop.

Following which A. H. Tharpe of the Sunset local expressed his ideas concerning the wheat pool. Mr. Tharpe assured the meeting that he believed concerning the wheat pool.
